

ings of this sort would do a great deal of good in clearing away misconceptions which existed as to the meaning and scope of Registration. He thought everyone must agree with the views of the Nurses' Association which they had just heard explained. Miss COOPER asked whether on the Register, Nurses would be also classed together, or whether they would be graded as to their degrees of nursing knowledge, or as to the special department they have worked in. Miss WOOD replied that probably the Register would merely show the name of the Nurse, where she was educated, and by what examination she had shown her fitness for Registration. After some further discussion, as no objections were raised, the Resolution was put to the meeting and carried unanimously. * * *

DR. SCHOFIELD then proposed, "That the best thanks of this meeting be accorded to Mrs. Head for her most kind hospitality, and to the Rev. Mr. Wrightson for taking the chair on this occasion." He strongly supported the scheme of the Association, and gave examples from his own experience to show the importance of the question to Doctors. Finally, he put the resolution to the meeting, when it was carried by acclamation. The vote was acknowledged by the chairman, and this very interesting and successful meeting then closed. * * *

I HEAR that Miss Hamilton has been appointed Matron of the Princess Alice Memorial Hospital, at Eastbourne, from over eighty candidates for the post. Miss Hamilton, who was trained at St. Bartholomew's, has for just eight years held the responsible post of Sister of the Sophia (Female Surgical) Wards of the London Hospital. I wish her all success and happiness in her new work. I am indebted to the courtesy of Mr. R. C. White, the clerk of the Hornsey Local Board, for the information that Mrs. S. C. Newton has been appointed Matron-Nurse of the Isolation Hospital of that district. Mrs. Newton was trained at the General Hospital, Wolverhampton, and has since worked in Institutions in Birmingham, Worcester, and Rugby, so that she brings to her new post a considerable amount of Nursing experience. I am glad to hear that Miss Blanche Lee has been appointed Sister at the Monsall Fever Hospital. Miss Lee was trained at the General Hospital, Nottingham, from which she passed about a year ago to undertake the duties of Sister at the East Dulwich Infirmary, and which she has performed till the present time. S. G.

TIME wasted is existence; used, is life.
Poor and content is rich, and rich enough.

THIS WEEK'S VACANCIES.

HOSPITAL INTELLIGENCE.

REPORTS OF INSTITUTIONS, ETC., COMMUNICATED AND COLLECTED.

WE are informed that Mr. G. W. Hastings, M.P., has accepted the Presidentship of the Congress of the Sanitary Institute, which is to be held in Worcester, commencing September 24th next; and also that on Thursday, May 16th, 1889, at five o'clock, a lecture will be delivered by Mr. H. E. Davis, late chief officer of Margate, Westgate, Broadstairs, and St. Peter's Fire Brigades, on "Fires and Fire Escapes, and the Prevention and Arrest of Fires." The chair will be taken by Dr. George Danford Thomas, M.R.C.S. * * *

THERE is a very clever descriptive sketch, "A peep at a city crèche," in the *Glasgow Evening News* of the 9th, referring to the Day Nurseries in that town. It is illustrated with some "cute" pen and ink sketches, and is of more than mere passing interest.
