

SOAPS.

(Messrs. A. & J. WARREN, 23 and 24, Redcliffe Street, Bristol.)

This firm have presented to the Hospital and Nursing worlds some valuable and useful manufactures. Their pure Olive Oil Soap is a bland, carefully manufactured article, obviously particularly useful in many cases, and put up in small portable tablets, retailing at 2d. each, or, for Hospital and Institution use, in 7lb. and 14lb. boxes.

THEIR COAL TAR SOAP

is also a most useful preparation. Well made and charged with just sufficient coal tar to be useful as a disinfectant without being objectionable, the mistake in a large number of medicated soaps. This is put up in the same form as the above. The same remarks apply to the

THEIR CARBOLIC SOAP.

This is guaranteed to contain slightly over 5 per cent. of Calvert's Carbolic Acid. This is also put up in a like form.

THEIR EUCALYPTUS AND GLYCERINE SOAP

is a novel, and, at the same time, a perfect combination, which will commend itself to Medical Men and Nurses generally. These Soaps have already had a high commendation from the Physician of

the Bristol General Hospital, Dr. Harrison, and we thoroughly and completely endorse his opinions. The Soaps lather sufficiently, freely, and without excess; are hard and well made.

STODDART'S SEA SALTS.

(Proprietors, Messrs. A. & J. WARREN, 23 and 24, Redcliffe Street, Bristol.)

This is a carefully prepared Salt, put up in a very useful and portable form, that is in boxes just sufficient for one bath, the contents of which should be dissolved in 2 or 3 gallons of cold water, and it retails for a penny. This is sold also in 2lb., 7lb., and 14lb. boxes, and in bags, 28lbs. 56lbs., and 112lbs. Purchased in these larger sizes the cost of the bath is much cheapened. Those who know the value of the use of Salt, will greatly appreciate this excellent method of packing, and the quality of the Salt offered.

Replies to Correspondents.

Sister G.—We cannot answer your question for certain. But we do not think it shows much courage on your part to wait until the battle has been won, before becoming a member, and so securing the advantages for which others have had to fight so hard.

X. Y. Z.—A considerable number of Hospitals give the day off. Get the "Nursing Directory" (price 5s., from this office). It gives particulars of the various Training Schools for Nurses in the United Kingdom.
