

Nursing Politics.

THE GENERAL COUNCIL LIST.

WE have been requested to publish the proposed list of sisters and nurses—with their present addresses—which has been sent out to the members of the Royal British Nurses' Association. This we present below, in the hope that those members who object to jobbery may have an opportunity of altering Mr. Fardon's list; and we must confess that Mr. Fardon's statement "that the committee were reluctantly unable to present a list as widely representative as they could have wished," so far as their "reluctance" is concerned, seems more than questionable. Strong protests have been certainly made, but without the least avail, against the list drawn up by Mr. Fardon, and which places TWENTY-SEVEN nursing and medical members of the Middlesex Hospital staff on the General Council list—a fact which requires no comment, and which it is impossible to justify.

SISTERS AND NURSES' LIST.
