patients in workhouse infirmary wards, and then you are in a position to sympathise with the Superintendent Nurse, who, I imagine, will never have a moment free from anxiety henceforth. I am sorry to see it is Lady Guardians who have brought about this dangerous I sincerely hope it will not be adopted in innovation. other institutions.

Yours faithfully,

DISMAYED.

## Motices.

In consequence of unnumerable complaints, we would advise our readers in provincial towns to order their NURSING RECORD through Messrs. Smith & Son's Bookstall at the Railway Station. In case they have any difficulty in obtaining it in this manner each week, we shall be glad if they will write a post card to the Manager, at our Offices.

Copies of the NURSING RECORD are always on sale at 269, Regent Street, price 1d. As this address is close to Oxford Circus, it will be found a Central Depôt.

## Comments and Replies.

Mrs. F. M. Craig, Bedford .- We do not know of such a Home in Switzerland. If your friend is not an invalid, one of the pensions on the International pension list, would probably meet her requirements. The cost is usually about six francs a day.

Mrs. P., Liverpool.-You will find the information you require in the "Nursing Directory," which is published

under the authority of the Matrons' Council. It may be obtained from the Manager, NURSING RECORD Office, 11, Adam Street, Strand. *Country Matron.*—We should advise you to apply for your ticket for the Matrons' Council Dinner at the Criterion Restaurant, on July 1st, as soon as possible. Members' tickets may be obtained from the Hon. Secretary, 46, York Street Bortman Scurre price tos fol Street, Portman Square, price 10s. 6d. New Matron.—You will find it necessary to keep a daily

*New Matron*.—You will find it necessary to keep a daily diary, noting such facts as the change of nurses from one ward to another, letters written, the dates of stock-taking of linen, the renewal of brooms, crockery, etc. The visits of the sweep, and the chimneys swept. The payment of salaries and wages, any alteration in these, and the dates from which an addition was meaned. These with rates from which an addition was promised. These, with notes from which an addition was promised. These, with notes on current events in the institution, will make your diary a most useful book of reference. From it you can system-atically, at intervals, bring your record of nurses' training up to date; and you will also in case of any doubt upon a

up to date; and you will also in case of any doubt upon a given point be able to clear it up by reference to your diary, if you have a note on the subject. *Trained Nurse.*—It is very desirable that you should obtain experience both in Maternity work and in fever nursing, before taking up private nursing. You must be sure to get thorough training in monthly nursing as well as midwifery; and it is well, if you can afford the time, and the money to take the two courses senately. A short the money, to take the two courses separately. A short three months-for the first examination of the London Obstetrical Society, for which of course you will enter, takes place at the end of about eleven weeks after the commencement of the term—is not long enough to devote to these important subjects, and consequently monthly nursing is apt to be somewhat ignored; but it is this that you will principally need in private nursing. For fever training we should advise you to apply for a post as nurse in one of the hospitals of the Metropolitan Asylums Board.
