Reflections

FROM A BOARD ROOM MIRROR.

His Majesty the King, the sovereign head and patron of the Order of the Hospital of St. John of Jerusalem in England, last week presented, at Marlborough House, the medals and certificates awarded by the Chapter during the past year.

Amongst the recipients were-

Amongst the recipients were— Miss Helen Pritty (Cretingham, Suffolk), bronze medal awarded for great gallantry and presence of mind displayed at Hope Lodge, Cretingham, on August 3rd, 1900, in a courageous endeavour to rescue a man named Charles Mann, who was overcome by four arcs of the bottom of a well 48 th deep

foul gases at the bottom of a well 48 it. deep. Mrs. Priscilla Laverack, Honorary Serving Sister of the Order, Hull Nursing Division, St. John's Ambulance Brigade; and

Mrs. Mary Jane Hare, First Nursing Officer, Hull Nursing Division.

There is no military fever hospital in London, soldiers being admitted to the institutions maintained by the Metropolitan Asylums Board. Scarlet fever has been prevalent of late in all the Metropolitan barracks. The truth is that many barracks are of obsolete construction, and are usually much overcrowded.

There is a record of good work in the pages of the last report of the Society for the Prevention of Cruelty to Children. Since its foundation the society has intervened in the interests of the happiness of 573,325children, and no fewer than 26,649 persons have been convicted of cruelty to little ones. Terms of imprison-ment total up to 4,259 years, while no less than $\pounds 6,297$ has been imposed in fines. Last year 31,725 cases were inquired into, an increase of nearly 3,000 on the previous twelve months. Warnings sufficed in the great majority of cases, but 2,884 prosecutions were necessary, of which 3 per cent, were discharged by the necessary, of which 3 per cent. were discharged by the courts. Neglect and starvation of children are on the increase; ill-treatment, assault, manslaughter, exposure, and causing to beg are on the downward grade. Infant mortality rates have grown down 3 per cent. since the society has been at work.
