OUR PRIZE PUZZLE.

Rules for competing for the Pictorial Puzzle Prize will be found on Advertisement page VIII.

In consequence of innumerable complaints, we would advise our readers in provincial towns to order their NURSING RECORD through Messrs. Smith & Son's Bookstall at the Railway Station. In case they have any difficulty in obtaining it in this manner each week, we shall be glad if they will write a post card to the Manager, at the NURSING RECORD Office, 11, Adam Street, Strand, W.C.

Comments and Replies.

Mrs. J. Edwards, Marlow.—You will not be alone in wearing sandals, and we are glad you paid a visit to the London Shoe Company and got what you required. It is remarkable how the fashion for wearing sandals has developed. At a single shop belonging to a firm which has been devoting itself to sandal-making, orders have been taken during the last eight weeks for no fewer than twelve thousand pairs. These sandals are not, as might be supposed, merely intended for children's wear, but a great many men and women have gone in for them, and the watering places may, therefore, be confidently expected to blossom forth with pilgrims shod with sandals.

Sister S., Birmingham.—You will usually find a notice of Nurses' Home of Rest at Brighton in this paper. Single rooms are 25s. a week inclusive. Write to the Matron, 12, Sussex Square. September is a delightful month in

Brighton. If you require bracing air, try Mundesley, near Cromer, on the Norfolk coast. Beautiful sands for children.

Private Nurse, Oxford.—Write to Superintendents, St. Andrew's House, Mortimer Street, W., and 24, Eastbourne Terrace, Hyde Park, W., for their terms. We can strongly recommend Thompson's "Graciosa" corset, and the price, 8s. 11d., is very reasonable; they are to be had from all drapers. There are no vacancies in the Registered Nurses' Society, but the Hon. Superintendent can be seen by appointment during the first week in August by nurses holding a three years' certificate from a general training school of good standing, who are desirous of joining later in the year.

Miss F. E., Putney.—Write to the Matron or to Miss Ritchie, Clapham School of Midwifery, 165, Clapham Road, and to Matron, 90, West Street, Brighton. Pupils to train for L.O.S. examination are taken. You will find everything you need at Messrs. Garrould, 150, Edgware Road, including a useful silent shoe made specially for ward wear.

Old Pro., Bournemouth.—Membership of the "Bart.'s" League is only open to those nurses who hold the certificate of training of the school; the Recreation Society you refer to at "Guys" is not organised on the same basis, but both Societies are useful in encouraging co-operation and *esprit de corps* amongst the nursing staff; it is a great need in our large hospitals, and if the pupils of nursing schools could meet on common ground in a National Society it would do enormous good by inspiring them with mutual appreciation, and decreasing the somewhat overweening estimation of their own perfections, which exists in the majority of schools at present. No doubt this will come to pass by and by.

Scotch Nurse, Glasgow.—Phototherapy has become a recognised addition to medical language. It designates "light" treatment, which may, in the near future, develop with marvellous results.

IN THE PRESS.

By BEDFORD FENWICK, M.D.,

Physician to The Hospital for Women, Soho Square;
late Senior Assistant Physician to the City of London
Hospital for Diseases of the Chest.

"The Nursing of Diseases of the Chest."
