## 6. A Retrospect and a Forecast.

Miss C. J. WOOD, *Late Lady Superintendent, Hospital for Sick Children, Great Ormond Street, London.*

Saturday, September 21st.

## TRAINED NURSES' DAY.

Owing to the kind interest evinced in the Nurses' Congress by Mr. William T. Buchanan, the Director-General of the Pan-American Exposition, it has been arranged that Saturday, September 21st, shall be known as Trained Nurses' Day, and that the splendid Temple of Music in the Exposition grounds, shall be placed at their disposal. The Committee greatly appreciate this courtesy, and it is proposed that a session shall be held, in which it is hoped Mrs. May Wright Sewall, President of the International Council of Women, Dr. Ida C. Bender, Miss Louisa Stevenson, Delegate of the National Council of Women of Great Britain and Ireland, and Mrs. Bedford Fenwick, President of the International Council of Nurses, will take part, and at which various resolutions relating to important nursing questions will be submitted.

It is a subject for much congratulation that the names of so many ladies who stand out as pioneers of improved methods of nursing and advocates of legislative reforms are to be found on the Congress Programme, and it will be acknowledged that the Conference will be both influential and sympathetic, when it is realised that the names of fifty of the leaders of nursing thought in different quarters of the globe are thus bracketed together. Let us hope that this multitude of Councillors may show forth much wisdom.

## BRITISH DELEGATES.

The following ladies will attend the Congress from Great Britain:—

Mrs. Bedford Fenwick, Mrs. Strong, Miss Louisa Stevenson, Miss Isla Stewart, Miss Mollett, Miss S. Cartwright, Miss Waind, Miss C. Wood, Miss Amy Hughes, Miss Annie Arkle, Miss F. Whitley, and Miss Horn. Miss McGahey and a nurse friend are visiting England en route for Buffalo.
