Nursing Echoes.

The Annual Conference of the National Union of Women Workers, to open at Aberdeen on October 12th, is this year full of interest for nurses. Hygiene and Health figure largely in the programme, and a resolution in favour of State Registration of Trained Nurses is to be proposed at the annual meeting of the

National Council of Women of Great Britain and Ireland by Lady Helen Munro-Ferguson and seconded by Miss Gill, R.R.C., Superintendent of Nurses of the Royal Infirmary, Edinburgh. Many of the nursing societies affiliated to the National Council of Women will be represented—the Society for the State Registration of Trained Nurses by Mrs. Bedford Fenwick, the National Council of Nurses by Miss Gill, and the Matrons' Council by Miss M. F. Tatham, Lady Superintendent of the Royal Aberdeen Hospital for Sick Children.

The Nursing Committee of the Scottish Branch of the Colonial Nursing Association ask us officially to intimate that nurses who wish to apply for employment under the Association can obtain full particulars and application forms from the joint Hon Secretaries of the Scottish Branch, 46, Castle Street, Edinburgh, who will also arrange for suitable candidates being interviewed in Edinburgh.

Members of the Roman Catholic faith in Surrey are greatly concerned in their minds at present. The Matron of the Royal Surrey County Hospital has been admitted into the Roman Catholic Church, and it was rumoured that she was to be dismissed by the Committee. Father Dennon has written to the local press protesting against such a course. He writes, in part:—

Putting aside all lofty religious or sentimental motives, this Royal Surrey County Hospital is a public undenominational, charitable institution, dominated by no sect. If this lady's conduct will not bear the light of day, let her, by all means, be dismissed. If, on the contrary, her only offence be her honest religious convictions, shame on those who dare insult and attack her! ("How sweet and pleasant a thing it is for brethren to live together in unity.") To allow this conspiracy to succeed would be an offence against society and the simplest elements of common justice; measured by such a standard, no one but hypocrites would pass muster.
