Methods of chest surgery learned while studying as a British Council scholar at the General Infirmary at Leeds are being applied by Dr. Luiz Carvalho Tavares da Silva in a hospital in the Brazilian town of Recife.

Dr. Tavares da Silva spent 10 months in 1950 and 1951 studying in the thoracic surgical department of the General Infirmary, Leeds. On his return to Recife, Brazil, last October, he established a new Chest Unit and a new operating theatre with equipment purchased in the United Kingdom.
