*the beauty
 of it is...*

that the Milton Feeding Bottle Routine is so simple.
 Whether a mother is busy, overworked — or let's face it
 just careless, she can still — with Milton — keep baby's
 bottle free from germs with very little trouble.

*“One of the greatest advances has
 been the use of Milton in the
 sterilisation of the feeding bottles
 and teats. In those hospitals which
 have adopted the Milton technique,
 Gastro Enteritis has entirely
 disappeared. No more broken and
 cracked bottles from steam steri-
 lisation. What a simple, yet
 absolutely efficient method.”*

*Extract from opening address at the Professional
 Nurses and Midwives Conference and Exhibition
 on Monday 17th October 1949*

Milton
