LECTURES AND DEMONSTRATIONS ON MEDICAL CASES.

Lecturer—J. WALLACE ANDERSON, M.D., F.F.P.S.G., PHYSICIAN TO THE ROYAL INFIRMARY.

This course, though partly systematic will in the main consist of a Series of Demonstrations in Medical Nursing on the cases in the wards of the Lecturer. His general idea and object will be to teach the nurse such things as bear directly on her duties, or are likely to help her to take a more intelligent interest in her work as a whole.

The plan or scope of the Course will be as follows : (1) The various features of disease that are to be observed and recorded. (2) The nursing of particular diseases. (3) The emergencies of certain diseases, and when medical aid should be sought. (4) The medical nursing of children. (5) The administration of medicines ; dietetics and regimenal treatment generally as directed by the physician. (6) The reporting of the case to the physician.

PRACTICAL LECTURES ON WARD WORK AND COOKERY.

BY MRS. STRONG, MATRON, ASSISTED BY MISS BELL, HOUSEKEEPER.

(1) Introductory. (2) Cleaning Ward Appliances. (3) Preparation of Solutions. (4) Washing helpless patients. (5) Preparation of Beds. Packs. (6) Surgical Dressings. (7) Massage. (8) Massage. (9) Emenata. Keeping Evacuations. (10) Thermometers. Cleaning Instruments. Four Demonstration Lessons in Cookery. Six Practical Lessons in the same.
