Rashes

DISTRESS + NEGLECT = DANGER

The soreness and distress of rashes caused by external irritants are often out of all proportion to the seriousness of the complaint. Their danger lies in the risk of secondary infection. They call for prompt sedative dressing and prolonged antiseptic protection.

'Dettol' Ointment provides both these measures effectively and together. It is richly emollient, cooling and sedative, to provide prompt relief from burning and irritation; and it embodies the active germicidal principle of 'Dettol' Antiseptic.
