*the beauty  
 of it is...*

that the Milton Feeding Bottle Routine is so simple.  
 Whether a mother is busy, overworked — or let's face it  
 just careless, she can still — with Milton — keep baby's  
 bottle free from germs with very little trouble.

*“One of the greatest advances has  
 been the use of Milton in the  
 sterilisation of the feeding bottles  
 and teats. In those hospitals which  
 have adopted the Milton technique,  
 Gastro Enteritis has entirely  
 disappeared. No more broken and  
 cracked bottles from steam steri-  
 lisation. What a simple, yet  
 absolutely efficient method”*

*Extract from opening address at the Professional  
 Nurses and Midwives Conference and Exhibition  
 on Monday 17th October 1949*
