99

It softens, soothes
and helps to heal

For those minor but often distressing skin conditions which call for a dressing both sedative and antiseptic, 'Dettol' Ointment may be prescribed with confidence for both mother and baby. In the treatment of cracked

nipples, and where hardening has taken place, 'Dettol' Ointment has a soothing softening effect; whilst for relieving and clearing up napkin rashes, this calming, cooling, richly emollient ointment is confidently recommended.

'DETTOL' OINTMENT
