A gentle friend to Mother and Baby

Minor skin irritations are not the least distressing or the least obstinate of complaints. Their seriousness may depend on the measures taken to combat secondary infection.

The success of 'Dettol' Ointment in keeping both mother and baby comfortable and safe, is due to the remarkable way in which it combines a promptly sedative with an actively germicidal action.

Where nipples have cracked or hardened, this richly emollient ointment softens, soothes, protects and helps to heal. In calming, cooling and clearing up distressing napkin rash it is notably efficient.
