For the very young and the very old

The first thing in dealing with rashes due to external causes is to relieve the soreness, irritation and distress: the next, to take active antiseptic precaution against secondary infection.

Because it takes both these essential measures efficiently, and together, 'Dettol' Ointment is notably successful in clearing up napkin and urine rashes.

It promptly cools the burning; it is richly emollient, softening and soothing; while to any cracking or other lesion that needs safeguarding, it applies the active germicidal principle of 'Dettol' Antiseptic.

Dettol Ointment BRAND ACTIVE RELIEF
