By C. J. S. THOMPSON.

THIS work is designed to assist students (especially those
who have little opportunity of practice) in the study of
the Dispenser's Art, and forms a concise but lucid treatise on
the subject.

The preparation of Mixtures, Pills, Emulsions, Supposi-
tories, together with such processes as Plaster Spreading and
Pill Coating, &c., &c., are carefully described and illustrated,
and *Practical Hints* given how to deal with difficulties that
may be met with.

There are also given detailed directions for the preparation
of Poultices, and of Nutritive Diet for Invalids; a Table of
French and English Weights and Measures, and one showing
the solubility of salts used in medicine.
