

compare favourably with the well-known *filtre rapide* of Messrs. Maignen. This is distinguished from others in the fact that the water passing through it is subjected to a triple filtration. It is very easily taken to pieces and cleansed; the powdered carbocalcis, which is the filtering medium, is renewable at a trifling cost, and extensive experiments have proved that it is most successful in removing noxious organic or metallic poisons. Those in want of such advantages—and no household should be without a filter—would do well to make trial of this very valuable safeguard.

JEYES' SANITARY COMPOUNDS.

This well-known Company have, we are glad to observe, been awarded a Gold Medal at the Punjaub Exhibition, India, and a Gold Medal at the Brewers' Exhibition, Manchester, bringing up the number of Medals and Awards to the Company to no less than 59. Under the name of "Senalia" the Company have recently introduced a Toilet Soap, which, for purity and delicacy of perfume, is claimed to surpass all others in the market. It is "Triple-milled," Superfatted, is manufactured by the most approved process, and is made from the purest materials only. The Soap should find its way into every household, since it is sold in boxes containing 4 tablets at 2s. per box only.

Comments and Replies.

Nurses desiring to write to Sister Henrietta concerning Kimberly Hospital are informed that, for the present, her address will be Stoke Prior Vicarage, Bromsgrove.

REPLIES.

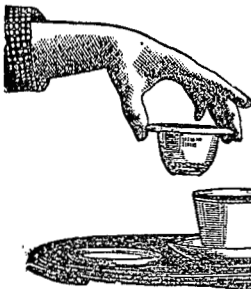

Sister Jessie, Wandsworth.—Apply to St. Paul's House Nursing Institution, Rome, or Holland Institution, Nice. The Directress, All Saints Rectory, Axminster, will be most direct in enquiring about the latter institution. If, however, you have friends in Italy and could make some arrangement whereby you could take your own fees, it would be better than working for an institution.

Mr. Arthur Day, Hove.—You can get trained at the National Hospital for Nervous Diseases, Queen Square, Bloomsbury, in that special branch of work. But we know of no first-class general hospital in England which admits male probationers—in American hospitals men are largely employed as nurses under the title of orderlies. To be a dresser you must become a medical student, as this is part of their duty in the wards.

LETTERS RECEIVED.

- A. Mrs. Roberts-Austen, London (with enclosure).
- B. Miss Bond, Chichester; Miss Bristowe, London.
- C. Mrs. Cust, Boston, U.S.A.
- D. Mr. Arthur Day, Hove.

- V. Miss A. Vincent, Paris.
- W. Miss Webster, Antwerp; Miss West, London.

THE SECRET OF A GOOD CUP OF TEA.

Tea as usually prepared contains a powerful astringent called Tannin, which is very injurious to the coatings of the stomach, causing Dyspepsia, Nervousness and Sleeplessness. Avoid this by using

HOBBS' Patent Anti-Tannin Infuser
By means of which a good and pure Cup of Tea can be obtained in three minutes. For single cups it is unequalled, and the saving in the quantity of Tea used will soon repay the cost.
