

through any chemist or direct from Messrs. Barton Bros. & Co., 2, Evelyn Terrace, Kemp Town, Brighton.

WINE OF COD LIVER OIL.

This is a new preparation made by Frederick Stearns & Co., of Detroit, Michigan, U.S.A., and recently introduced into this country by Messrs. Christy & Co., of Lime Street. We have tried it in several cases, and have been very much pleased with the good results which it has given. The peptonate of iron which is combined with the oil, conceals, to a considerable extent, the taste of the latter. In several cases, in which we have employed this preparation, it has undoubtedly improved the general health, and especially the digestive powers of the patient. It should, therefore, prove we imagine, especially valuable in the treatment of cases of incipient phthisis. Stearns' "Cascara aromatic" is another preparation which has recently been brought to our notice, and which, we find, possesses all the advantages which have made this drug so largely employed in cases of chronic constipation, but without the extreme bitterness which is such an unfortunate drawback to ordinary preparations. It has been taken readily by some patients who were unable to take the Syrup as usually retailed.

Comments and Replies.

REPLIES.

The Editor will be glad to hear from any Nurse who needs Needlework, as many of the members of the Registered Nurses' Society would be glad to pay for having their caps made. Address, 20, Upper Wimpole Street, London, W.

Miss Henrietta Kenealy, Watford.—Thanks for excellent article—shall reserve it for double quarterly number, issued first Saturday in July.

Miss Hastings, London.—We always speak from personal experience in Nursing matters, and we consider the strain of private Nursing greater than that of Hospital Nursing, inasmuch as much greater responsibility is involved in the former than the latter branch of work.

Miss Amy Anderson, Manchester.—Nothing will be definitely settled concerning the constitution of the Matrons' Council until after the meeting to be held in London in July. We are glad you are in agreement with the movement, and we feel sure it will greatly extend the personal sympathy of Matrons, not only for one another, but for every member of their profession irrespective of status.

THE SECRET OF A GOOD CUP OF TEA.

Tea as usually prepared contains a powerful astringent called Tannin, which is very injurious to the coatings of the stomach, causing Dyspepsia, Nervousness and Sleeplessness. Avoid this by using

HOBBS' Patent Anti-Tannic Infuser
By means of which a good and pure Cup of Tea can be obtained in three minutes. For single cups it is unequalled, and the saving in the quantity of Tea used will soon repay the cost.
