THE NATURAL CARLSBAD SALTS

are now also prepared FROM THE MINERAL WATER in the form of Powder ("Pulverförmig"), which contains *all the constituents* of the Sprudel Spring, the water of which is largely prescribed in cases of CHRONIC GASTRIC CATARRH, HYPERÆMIA of the LIVER, GALL-STONES, CHRONIC CONSTIPATION, DIABETES, RENAL CALCULI, GOUT, and DISEASES of the SPLEEN, &c.

The Powder has the great advantage in not being affected by change of temperature or exposure to the atmosphere, and therefore in this form is the most reliable.

WHEN PRESCRIBING it is necessary to state if "POWDER" or "CRYSTALS" are required, otherwise the latter will be understood by the Chemist.

A SAMPLE of the SALT in POWDER, FREE to MEMBERS of the MEDICAL PROFESSION on application to the Sole Importers for the United Kingdom and the Colonies—
