Nurse A. Stratford, of Eltham House, Foxley Road, North Brixton, S.W., writes on 5th February, 1897:—"Many thanks for your samples; I have had opportunities of using many kinds of Malt Extract for various patients, and find that your preparation of 'Diastol' is far superior to all others, and shall have much pleasure in supporting same, whenever opportunity occurs, having proved its unequalled value, especially in a recent case of Chronic Anæmia. We had tried everything, but she could not digest the lightest food. I used your sample of 'Diastol,' and though it was only a small bottle, it had a wondrous effect, for the vomiting ceased, and the poor girl begins to show signs of improvement already. This alone is only a small instance of its value."

"STANDARD BRAND" MALT EXTRACT has three times the digestive strength of any other brand, and is much more economical, owing to its more concentrated form and smaller dosage required. Remarkably beneficial in chest and digestive troubles. Also for weak and rickety children.

Prices 1/3, 2/3, and 4/- per bottle.

"It is an excellent food- tonic, containing the active principles of the Kola Nut, Beef Juice, and finest Port Wine. It stimulates the nervous system, augments the appetite, aids digestion and accelerates intraorganic oxidation, and thereby prevents the accumulation of poisonous leucomaines in the blood and tissues. Kollox Wine is a most palatable cerebral stimulant and is an invaluable restorative in muscular and mental fatigue, sleeplessness and depression arising from overwork and worry. It also possesses great strengthening and nourishing properties; in fact it is a high-class and unique preparation. I have no hesitation in recommending it to medical men and others."
