

excellent pick-me-up. In cases of prolonged fever it is not always advisable to confine the patient to fluid diet. We can all of us remember prolonged cases of enteric fever in which the temperature never seems to come down until some solid food is given, the temperature in such cases being no doubt due to exhaustion. In the same way in certain cases of malaria the temperature is probably due to the same cause, and such cases are benefited by solid food. However, the nursing of malaria is a wide subject. There are many other points to which I should like to allude, but refrain.

I am, dear Madam, faithfully yours,  
"CERTIFICATED NURSE."

### Notices.

WE regret that in our issue of last week it was stated, through a printer's error, that Pond's Patent Toe Spring could be obtained from Mr. Bond, Castle Meadow, Norwich. The name should, of course, be *Pond*, not Bond.

*In consequence of innumerable complaints, we would advise our readers in provincial towns to order their NURSING RECORD through Messrs. Smith & Son's Bookstall at the Railway Station. In case they have any difficulty in obtaining it in this manner each week, we shall be glad if they will write a post card to the Manager, at our Offices.*

*Copies of the NURSING RECORD are always on sale at 269, Regent Street, price 1d. As this address is close to Oxford Circus, it will be found a Central Depot.*

## PUBLISHER'S NOTICES.

**CASES FOR BINDING** Half-yearly Volumes of THE NURSING RECORD, post free, 2/- each.

**Complete** Volumes of THE NURSING RECORD, 7/- each.

*Carriage to be paid by Purchaser.*

**Indexes** 6d. each, post free.

**Back Numbers** over Twelve Months old, 6d. each, post free.

**Readers' Own Volumes** bound complete, 2/6 each.

*Remittances in all cases must be made when ordering.*

3d. will be given for each clean and perfect copy of the "Nursing Record" for Oct. 21st, 1893, and for Jan. 23rd, 1897, which is sent to

The Manager,

"THE NURSING RECORD."

11, Adam Street, Strand, London, W.C.

## Comments and Replies.

*Sister G.*—We should advise you to get "A Guide to Paris and the Exposition of 1900," just issued by Messrs. Harper and Brothers. Price 4s.

*Intending Probationer.*—It would certainly be your duty to nurse wherever you are sent, either on night or day duty. At night you would be under the staff nurse of the ward and the night sister. If you "do not think you would like night duty" indeed, if you are not prepared to perform all the duties required of a nurse you had better not begin to train at all, as you cannot have the necessary qualifications, and the attempt would merely result in disappointment.

*Vallie Varney.*—Kindly send your name and address, not for publication, but in conformity with our regulations, and we will answer your question. It is against our rules to answer anonymous correspondents.

*Mrs. Turner.*—There is at present no legal Register of Trained Nurses, as is the case with the members of the medical profession, which you can consult as to the career and qualifications of nurses. The publication of such a volume is greatly to be desired, and as it is a matter which concerns every person who may need the services of a trained nurse, it behoves every one to do their share towards obtaining this necessary measure. You could not do better than obtain the *Nursing Directory*, issued under the authority of the Matrons' Council, from the offices of the NURSING RECORD, 11, Adam Street, Strand, price 5s.

*Certificated Nurse.*—If you wish for fever training you should apply to the Matron of one of the hospitals under the Metropolitan Asylums Board, stating that you have a three years' certificate. There is no doubt that fever training will be most useful to you if you intend to do private nursing.

*Nurse Peters.*—We quite agree with you that it behoves all nurses who desire to obtain nursing legislation to work for the enfranchisement of women. We do not think that much will be done in furtherance of their professional interests until this takes place.

# NORRIS'S NURSING NOTES
