## New Year's Honours.

THE first New Year Honour List of the 20th Century does not contain one woman's name. How will it be when the 21st century dawns? Will woman's work for the State and in the various professions and sciences be still unrecognized? Scarcely. We could have wished that the present century had ushered in a juster appreciation and recognition of the value of women's work.

Meanwhile, we are glad to note that Dr. Thomas Barlow, Physician Extraordinary to the Queen and Professor of Clinical Medicine and Physician to University College Hospital, has received a well-merited Baronetcy, as well as Dr. W. S. Church, F.R.C.S., President of the College of Physicians and Senior Physician to St. Bartholomew's Hospital.

A Knighthood has been conferred on Dr. Hugh Adcock, consulting physician to the Shah of Persia, who rendered valuable service in the severe cholera epidemic in that country in 1892, and Sir William Turner, President of the General Medical Council, has been made a K.C.B.

## Appointments.

### MATRON.

MISS SARA S. NEECH has been appointed Matron of the Hertford British Hospital, Paris.
