It is interesting to note that of the 209 members elected on the 6th inst., 58 are past or present Matrons or Superintendents of Nurses, 69 Sisters or Charge Nurses, and 82 hospital or private nurses, and that with few exceptions they hold a three years' certificate of training, showing that it is the well educated and efficiently trained nurses who are most keenly alive to the necessity for nursing organisation and reform. Surely such women are the best judges.
