THE ANNUAL MEETING.

The arrangements for the Annual Meeting were then considered. The Hon. Sec. reported that Miss Louisa Stevenson had consented to preside in London on Friday, May 1st, and that it was sug-gested that a hall should be taken; a Business Meeting to be held in the morning, and the afternoon session devoted to earnest conference on the question of State Registration of Nurses as it affects the community; that experts should be invited to deal with Registration from the social, educational, and professional points of view, which sections should be sub-divided so that the most important points should receive full consideration. It was proposed to have a Social Gathering in the evening, either by invitation or otherwise.

The Committee unanimously agreed to all the suggestions, and expressed a hope that Matrons and nurses who, whilst not yet members of the Society were equally anxious with ourselves for the better organisation of the nursing profession would attend the Conference and take part in its deliberations.
