### League Representatives at the Berlin Congress.

It is very satisfactory that the various Nurses Leagues are showing their appreciation of the benefits to be attained by international conference with the women of other nations. In this connection we learn with pleasure that the League of St. John's House Nurses, as well as the Bert's League, has decided to send a representative to the International Congress of Women at Berlin next year.

### British Gynæcological Society's Nursing Examinations.

An examination of this Society for its nursing certificates was held on December 3rd and 10th, the written part being conducted in Bristol, Gloucester, Brighton, Kingston-on-Thames, and London on the former date, and the *viva voce* portion at St. John's House, Norfolk Street, Strand, on December 10th. The following candidates passed the examination and received the Certificate for Gynæcological Nursing:—

- Miss Eliza F. Armstrong, Cert. St. Bartholomew's Hospital (4 years).  
 Miss Ethel M. Attenborough, Cert. Guy's Hospital (1 year) and Cert. Brighton Hospital for Women (3 months), L.O.S. certificate.  
 Miss Kate Ethel Barling, Cert. St. Bartholomew's Hospital (4 years).  
 Miss M. Fry, Cert. Bristol General Hospital (1 year) and Cert. Clapham Maternity Hospital (2 months).  
 Miss Katharine Kerr, Cert. Guy's Hospital (one year) and Cert. City of London Lying-in Hospital (3 months).  
 Miss Florence Selby, Cert. Birmingham Workhouse Infirmary (3 years) and 4 years' special work in Birmingham Gynæcological Homes.  
 Miss Agnes H. Withers, Cert. Gloucester General Infirmary (3 years) and Cert. Brighton Hospital for Women (3 months).  
 The following candidates also obtained the Maternity Nursing Certificate:—  
 Miss Ethel M. Attenborough.  
 Miss Ellen M. Dickson, Cert. Charing Cross Hospital (3 years) and Cert. British Lying-in Hospital (1 month).  
 Miss M. Fry.

The following were the examination papers:—

#### GYNÆCOLOGICAL NURSING EXAMINATION.

1. Describe fully how you would prepare a patient for amputation of the breast.
2. Describe the nursing of a patient who has been operated on for ruptured perineum.
3. To what points would you specially direct your attention in nursing a patient for the first twelve hours after an abdominal operation had been performed on her?
4. Describe fully your method of administering a vaginal douche. What fluids are most usually employed for that purpose?
5. How would you prepare a patient for an operation on the cervix; and what subsequent nursing is usually required?
6. How would you prepare—
  - (a) Glycerine plugs?
  - (b) Swabs or sponges for an abdominal operation?
