The following illustrations, reproduced from the American Journal of Nursing, show the bag now used by the nursing staff of the Henry Street (Nurses) Settlement, New York City. The bag is made of mometers (mouth, rectal, contagious); (15) one pencil; (16) two towels, dressing and hand; (17) one apron; (18) one linen instrument case, one caustic pencil, tooth picks, one medicine dropper, one syringe, one rubber catheter and connecting tube, one glass catheter; (19) two linen dressing cases, two muslin bandages, four gauze bandages, two yards of gauze, one small roll absorbent cotton; (20) one funnel, rubber tissue, writing pad, bedside notes and envelopes.

PRIOE.

One bag with adjustable lining and filled as per list, 10.00 dols.; one bag with adjustable lining filling, without 5.00 dols.; one extra lining, 1.25 dols.

So many requests have been received for information about "bags" from other district nurses, that the Settlement has arranged to have this bag placed on sale at cost price.

The fault of most district nurses' bags is their excessive weight, and it is claimed for the one illus-

screw-top jars; (7) four short screw-top jars; (8) one small screw cascara vial; (9) one bowl or tray; (10) one nail brush; (11) one roll Z. O. plaster; (12) one box talcum powder; (13) one spatula; (14) three ther-

trated that even when packed it is easily carried. Any contrivance which lessens a nurse's labour is to the good, as a long day in the district is calculated to use up all the vitality she can spare.
