THE INTERNATIONAL COUNCIL OF NURSES.

265, Henry Street, New York City,  
June 6th, 1908.

DEAR MISS CUTLER,—The definite formation of the National Council of Trained Nurses of Great Britain and Ireland is warmly welcomed, and congratulations to its far-seeing leaders offered, by the American Federation of Nurses.

The cordial invitation to the International Council to meet in England next summer has given general satisfaction to the Councillors, and it is with much pleasure that I record their acceptance of the hospitality of our British members.

It seems especially appropriate that our first regular business meeting should be in England,

as it is there that the first seeds of international union among nurses were planted by our untiring crusader for women's progress, Mrs. Bedford Fenwick, whom you have wisely placed at the helm of your national craft, and who has been the foremost in the advance of the International Council.

Looking forward with much pleasure to our reunion next summer, believe me to be

Very sincerely yours,

L. L. Dock, Hon. Sec.,

International Council of Nurses.

### PRELIMINARY ARRANGEMENTS FOR THE INTERNATIONAL MEETING.

The preliminary arrangements for the Quinquennial Meeting of the International Council of Nurses were considered, and several interesting suggestions received.

### ADVISORY COMMITTEES.

The Chairmen and Members to comprise the Standing Committees were nominated subject to their consent to act, on Navy and Army Nursing, Poor Law Nursing, District Nursing, School Nursing, Private and Home Hospital Nursing, Convalescent and Sanatoria Nursing, Prison Nursing, Mental Nursing, Fever Nursing, Obstetric Nursing, Hospitality, and Library.

The President explained that the inclusion of the Chairmen of Standing Committees as members of the Executive Committee had been arranged, so that it might be composed largely of experts in every branch of nursing, and thus their valuable knowledge be available for the benefit of the profession at large. One duty of the Standing Committees would be to prepare a short report annually of events and work in connection with their particular branch of nursing. Thus the Committee on Navy and Army Nursing would note the formation of the new Army Nursing Reserve, the Nursing Service of the Territorial Force, etc. These reports would be incorporated in the Annual Report to the Members of the National Council, and should prove of very great educational and historic value.

The Meeting then terminated.

BEATRICE CUTLER,

Hon. Secretary.
