

**GREAT NORTHERN HOSPITAL EXONERATED.**

An adjourned inquest was held by the Islington coroner on January 29th into the death of Edwin Clow, aged 62, who died in the Great Northern Hospital after a bicycle accident. Evidence was taken from the house surgeon, the Ward Sister, and nurses of the hospital concerning certain allegations which had been made by the relatives as to neglect in nursing. The jury returned a verdict of "Accidental death." They expressed the opinion that Clow had received every attention at the hospital, and that there was no cause of complaint.
