

The International Congress of Nurses.

We want flowers, and as we never ask for anything we do not get in connection with our wonderful Congress, we shall be pleased to hear from friends who feel they *must* supply this need.

It would be nice if we could have a good supply of fresh flowers, with plenty of "green," delivered quite early, say, not later than 10 a.m., at Caxton Hall, on Tuesday, July 20th, and the three following days. Flowers sent from the country should be addressed to the Hon. Albinia Brodrick, Chief Steward, Nurses' Congress, Caxton Hall, Westminster, S.W., and if brought to the Hall should be delivered at the Bureau.

Miss L. L. Dock, Hon. Secretary of the International Council, has arrived in London, and is hard at work furthering its interest. Miss Dock will be at the office, 431, Oxford Street, for part of every day, and will be glad to see foreign delegates and afford all possible information.

The first thing done by delegates—official and otherwise—upon arriving in London should be to call at the office of the International Council of Nurses, at 431, Oxford Street, W., and procure their Congress Ticket Badge, and Programme, and Tickets for Social Functions. On Thursday, Friday, and Saturday, July 15th, 16th, and 17th, Mrs. Spencer will attend at the office, and, together with Miss Kent, will give all necessary information. Delegates can then register their London addresses.

Sister Agnes Karll arrived in England on Wednesday, as the guest of Miss Mollett, at Southampton. She will spend a week in Devonshire with Miss Sanderson and Miss Burr, to get a little rest before the strenuous week's work (and we hope pleasure) before us, dating from July 19th.

Miss Snively has arrived in Scotland from Canada, and writes that the great privilege granted by his Majesty the King in acceding to the request of the Canadian National Association of Trained Nurses, to lay a wreath on the late Queen's tomb "is deeply appreciated throughout Canada."

Arrangements will be made for foreign nurses to visit hospitals and other interesting institutions during their visit to London. The Sub-

Committee of the Claybury Asylum, Woodford Green (L.C.C.), one of the most modern and up-to-date institutions for the care of the insane, will be pleased to afford facilities to members attending the Congress to visit Claybury Asylum.

Miss Campbell, Matron of the Parkwood Convalescent Home at Swanley, will welcome visitors to this beautiful institution. If sufficient names are given in to form a party, the means of coming and going will be arranged later.

An opportunity will likewise be afforded of visiting the new Moorfields Ophthalmic Hospital, E.C., as the Chief Resident Medical Officer has most kindly proposed to arrange for any number of nurses to be shown the hospital.
