#### NURSES' GIFT TO THE CHAPEL, ROYAL INFIRMARY, GLASGOW.

It is proposed to place in the Chapel of the New Royal Infirmary, Glasgow, a stained glass window, from the nurses past and present. Intimation of the proposal has been sent to those whose addresses are known, but it is difficult to get at all former nurses who would like to associate themselves with the erection of the window in connection with their training school.

Subscriptions—which are limited from 1s. to 2s. 6d.—will be gladly received by the Matron, Miss Melrose.

#### PRESENTATION.

The Nurses' Home of the Derby Union Infirmary was the scene of a cordial demonstration when, upon the occasion of the resignation of Charge Nurse Desmond, after 15 years' continuous service in the Hospital, she was presented with a case of silver articles for use on her dressing table. An enclosed ornamental card bore the following inscription: "Presented to Nurse Margaret Desmond as a small token of regard and regret on the termination of her 15 years' service at the Derby Union Infirmary, September 1st, 1911. From her fellow-workers past and present, whose names are inscribed within." Miss Desmond expressed her gratitude to her friends, and her admiration of the useful testimonial. She has also been the recipient of a very dainty jewelled pendant, as a gift from the Ladies' Committee of the Brabazon work carried on in connection with the Infirmary.

#### AUSTRALASIAN TRAINED NURSES' ASSOCIATION.

Dr. Sinclair Gillies, who has acted as Vice-President for several years, has been appointed President of the Australasian Trained Nurses' Association. Dr. Fiaschi, the retiring President, has been elected Patron of the Association.
