

**THE QUESTION OF STARCH.**

Dr. J. P. O'Hea, M.B. (Lond.), F.R.C.S. (Eng.), writes in his Work, "The Rearing of Children," p. 51:—"It is true that Barley Water, which is so commonly used to dilute milk for babies, contains starch; but the amount is *really very small, and is in very fine particles indeed*, and causes no trouble. This is practically the only form of unaltered starch which will be found to agree.

**WHEN MAKING BARLEY WATER, ALWAYS USE**

**ROBINSON'S "PATENT" BARLEY**

Mr. & Mrs. A. C. Goodall's family of ELEVEN children all brought up on ROBINSON'S "Patent" BARLEY.

**Goes 8 times as far as pearl barley**

*(vide report of Birmingham County Analysts.)*

**Avoid pearl barley**

**which is often adulterated.**

**Keen, Robinson**

**& Co., Ltd., London.**

PATENT No. 17178.

**NURSE CROSS'S BREAST PROTECTOR & SUPPORT**

**for Nursing Mothers**

*Price 2/11 per pair*

This is an invention for Nursing Mothers to prevent their clothing from becoming damp. The protector is made of thin water-proof non-rubber material fitted with absorbent pads. It can be adjusted to fit any figure, can be worn by day and night, and keeps in position without any discomfort to wearer.

*It is made purposely light, so as to be worn under the usual clothing, and gives valuable support to the breasts.*

To be obtained from—

**NURSE CROSS,  
14, Portland Street, King's Lynn, Norfolk**
