Miss Mary Conalty is appointed to Tottenham, Miss Ethel Lyon to Blagdon, Miss Marion McAlister to Darwen, Miss Mary Nedwill to Chatteris.

## ANATOMY.

(How it feels when the L.G.B. Tutorials come round.)

They make me write of "bones" when I am dreaming

Of heather stretching far and far away,  
And once again I hear the wild gulls screaming,  
Across the dark blue waters of the bay.  
I see the fishing boats all in a-drying,  
I see the fishers mending tattered nets,  
And something in my soul keeps on a-crying.  
Perhaps its old regrets!

They make me write of "bones" when I would wander

Across the hills that ever call to me,  
And down the paths where dreamy brooks meander  
Where life is brave and strong and sweet and free.

I want to go where daffodils are blowing,  
Where lilies' gentle heads look up and smile,  
I want to go where sun-kissed streams are flowing,  
But I must wait awhile.

They make me write of "bones" till I grow weary

And skeletons are pictured on my brain,  
Till life seems desolate and dark and dreary  
And knowledge is a thing all mixed with pain.  
I want to leave anatomy behind me,  
To wander in the wilderness at will,  
I want to go where study will not bind me,  
But I must study still.

—D. G.
