

Dublin; and as Midwife at Queen Charlotte's Hospital, London. She has held the position of Charge Nurse at the Fountain Fever Hospital, Tooting; Senior Midwife at the Lincoln Home; and District and School Nurse and Health Visitor in Aylesbury.

HEALTH VISITOR.

The Royal Borough of Kensington.—Miss Winifred H. E. Whitbread has been appointed Health Visitor for a period of twelve months. She was trained in general nursing at the General Hospital, Northampton; and in infectious nursing at the Basford Sanatorium, Nottingham. She has been Sister and Deputy Matron in the same institution; and is at present House and Out-patient Sister at the General Hospital, Northampton. She is a certified midwife, and is certified by the Royal Sanitary Institute as an Inspector of Nuisances.

Warwickshire County Council, Birmingham.—The following ladies have been appointed Health Visitors: Miss Mary Chorlton, formerly Assistant Inspector, National Insurance Commission. Mrs. A. G. Richardson, who has been Health Visitor at Ilford, and Miss B. B. Thoms, who has been Health Visitor, Lancaster.

QUEEN VICTORIA'S JUBILEE INSTITUTE.

TRANSFERS AND APPOINTMENTS.

Miss Betsy Shuttleworth is appointed to Cornwall as Assistant Superintendent. She received General Training at the Salford Union Infirmary, Midwifery Training at the Devon and Cornwall Training Home, Three Towns, and District Training at Burnley, and has since held several appointments under the Institute.

Miss B. Ashworth is appointed to Darwen, Miss A. W. Bird to Darfield, Miss A. Bower to Stockport, Miss E. Ellison to Egremont and Seacombe, Miss Mary Powell to Chard, Miss Laura Scott to Highfields and Woodlands, Miss Ella Sissons to Taunton.

EXAMINATION FOR THE ROLL OF QUEEN'S NURSES.

1.—How may ophthalmia neonatorum be caused, and describe in detail the ways in which a nurse can assist in its prevention or cure?

2.—What would you do before the doctor's arrival if called to:—

- (1) A case of Hæmatemesis.
- (2) A case of Hæmoptysis.
- (3) A case of Cancer of breast with hæmorrhage.

3.—If when visiting school children in their own homes you found a bad case of pediculi capitis, how would you proceed to deal with it?

4.—What advice would you give as to the disposal of all waste products in a country district where no refuse is collected, and where there is no water carriage system?

5.—What is a school for Mothers? What is the object of such a school? How can a district nurse assist?

6.—Give an outline of a "health talk" (one of a series) to girls just leaving school.

NURSING ECHOES.

GENERAL NEWS.

The Children's Welfare Exhibition, promoted by the *Daily News and Leader*, will be held at Olympia from April 11th to 30th. The Woman's Kingdom in connection therewith will be placed around the Gallery, and as the activities of women would be very incomplete without representation of the Handicraft and work of the Trained Nurse, a Nursing Section is being arranged by the National Council of Trained Nurses. A fine space of 15 by 20 feet has been allotted to the Council, and many of its members are busily engaged in preparing an exhibit which will we feel sure arouse much interest.

Of course, to give the public any idea of the widespread usefulness of Trained Nursing in all its branches, the whole of Olympia might be engaged, but for the time being it is wise to do perfectly the sections for which we have space. Our newly affiliated League of Royal Free Nurses will show again that perfect little exhibit, which aroused so much interest at the Horticultural Hall in 1912, Nursing in connection with the Digestive Tract—and Miss Barton, President of the Chelsea Infirmary Nurses' League, will set out her charming group of uniformed dolls, and chart of nurses' medals and badges. Other Leagues and nurses have also promised help, so that we shall have a nice little show. Space will be kept in which nurses may exhibit, free of cost, their inventions and "dodges" for the comfort of the sick. Such articles, or a description of them, must be submitted at 431, Oxford Street, London, W., not later than April 8th.

LEAGUE NEWS.

The *League Journal* of the Hendon Branch of the Cent. Lond. Sick Asylum Nurses' League, just to hand, is charmingly got up. On the cover the Badge and Motto appear—the latter, just the words, "Courage, Loyalty, Sympathy, Action," could not be more inspiring for a nurse. The frontispiece shows the City of Westminster Infirmary, as it is now called, at Hendon, an exceedingly pretty building, beautifully situated, and in the *Journal* a most interesting article on Westminster, by Mr. H. J. Williams, appears full of delightful historic touches, sad reading for the antiquary. "Gone is Westminster of pre-Reformation days. Gone is the 'real' Abbey; the Abbey of spiritual life: leaving its bare bones to tickle the taste of the antiquary, and gratify the curiosity of the 'tripper.' Gone the Abbey
