

organised as such by Mme. Lautey, wife of the Minister of War. A ward in this hospital has been equipped by the French Wounded Emergency Fund which is so liberal with its gifts to the French sick and wounded. One of the delegates recently visiting a hospital where our nurses were working remarked, "F.F.N.C. Nurses! Then the wounded will be well cared for!" Such kindly appreciation is always welcome.

*Bush Hill Park Hosp., Enfield.*—Miss M. Cockle.  
*Ashfield V.A.Hosp., Malvern.*—Miss K. Roberts.

### OUR ROLL OF HONOUR.

We greatly regret to record the following death, officially reported, in the Military Nursing Service Reserve:—

#### NURSING SERVICE.

MANN, Staff Nurse A. G., Queen Alexandra's Imperial Military Nursing Service Reserve. Previously reported missing, believed drowned, now reported drowned.

### TRUE TALE AND A MORAL.

We heard a true little tale the other day. A patron of V.A.D.s had, we gathered, urged on the King the need for some practical proof of appreciations for V.A.D.s from the fount of all honour.

To which suggestion His Majesty made the sensible reply:

"The Tommies in the trenches are content to wait for their medals till the end of the war."

Presumably the King is of opinion that V.A.D.s might well emulate the good example of his glorious and self denying Army!

### OUR PRIZE COMPETITION.

We regret that none of the papers received this week in connection with our prize competition, "What do you know of Trench Feet and how have you seen the condition treated?" come up to the standard justifying the award of a prize. Evidently our readers abroad are too busy to compete, and the knowledge of the subject of those at home is limited.
