CENTRAL MIDWIVES BOARD.

EXAMINATION QUESTIONS.

The following are the questions set at the Examination of the Central Midwives Board on October 2nd, 1922:—

1. Describe the Afterbirth at term. Of what is it composed, and what are its functions?
2. What is the significance of albumen in the urine of a pregnant woman? How would you discover its presence, and, if found, what is your duty?
3. Describe the means to be adopted in the management of the Second Stage of labour in order to avoid (a) Perineal Rupture, and (b) Infection of the mother.
4. A woman, at the beginning of labour, has a severe hæmorrhage. What are the possible causes, and what would you do pending the arrival of a doctor?
5. What signs in the infant would make you think that it had received injury during birth?
6. What are the chief items to be entered in your Register of Cases? What is the importance of keeping the Register properly?
