

my best for the patients, there are many things I have to teach myself. I do hope, Sir, you will put this in your paper, which is always so kind towards Nurses, and has made us think of things we never did before.—Yours obediently,  
HOME HOSPITAL NURSE.

*To the Editor of "The Nursing Record."*

Sir,—Will you make it known for me in your correspondence column that, as I am not returning to England until next spring, I shall not be at home to receive the articles of work made by the members of the "Society for Hospital Work," but will all members very kindly forward garments, &c., by the end of December, to—

MISS TYSON, c/o Miss Orton Smith,  
4, Kemplay Road, Hampstead,

as this lady has promised to collect the goods for me and keep them until my return (D.V.)? Will you allow me space to say, too, that owing to my having been seriously ill all this year, I have not been able to look up fresh members, &c.? The Society now numbers forty members, who pray for and work for our London Hospitals. I shall be glad to hear of anyone willing to join us in this work, and I would also ask the prayers of those who do belong for my own health, which is bad just now.—Believe me, very faithfully yours,  
ADA BEATRICE TYSON.

P.S.—Address for anyone willing to join the Society:  
c/o Donald Currie, Castle Mail, Cape Town.

THE R.B.N.A. BADGES.

*To the Editor of "The Nursing Record."*

Sir,—In your admirable description of the annual *Conversazione* of the R.B.N.A., I see the names of two Nurses are omitted, who received their badges from the hands of our President.

These are Miss Sara Jacobs, late Head Nurse at the Lincoln County Hospital, and now Lecturer for the National Health Society; and Miss Agnes Davies, Staff Nurse at the Lincoln County Hospital.—Yours truly,  
C. M. BEACHCROFT,  
(Matron and Superintendent of Nursing),  
County Hospital, Lincoln.

*To the Editor of "The Nursing Record."*

Dear Sir,—I see in your paper this week that my name is entered as having received a bronze badge, when it ought to have been among the names of those who received a *silver* badge. Will you kindly remedy the mistake in your next week's *Nursing Record*.—Yours faithfully,

CLARA L. BUTLER, Matron.

Samaritan Free Hospital for Women and Children,  
Marylebone Road, N.W.

CHELSEA HOSPITAL FOR WOMEN.

*To the Editor of "The Nursing Record."*

Sir,—I beg to ask your kind permission once more to appeal to the benevolent on behalf of this Charity, the claims of which are briefly these: It relieves about five hundred in-patients and twelve thousand out-patients annually. It has an excellent Convalescent Home, at St. Leonard's; it has no endowment or reserve funds, and is consequently entirely dependent upon voluntary gifts and subscriptions.

As the Committee will not this year issue the usual Christmas appeal, I earnestly hope that this application on behalf of the Charity will receive a generous response. Contributions will be thankfully acknowledged by Mr. Henry E. Wright, the Treasurer.—I am, Sir, your obedient servant,  
Chelsea House, S.W. CADOGAN, President.

A PROFESSIONAL  
**NURSE'S TESTIMONY**  
TO  
**FRAME FOOD' DIET**

*The following extracts are from letters, dated August 2nd and September 1st, 1891, received from Mrs. Lewin, South Woodford. The original letters may be seen on application to the Frame Food Company, Limited.*

"I am a Maternity Nurse with a large connection. I can conscientiously speak of 'FRAME FOOD' DIET as being splendid for children. A few weeks ago I was asked to see an insufficiently nourished child, 12 months old. I recommended 'FRAME FOOD' DIET, and the result is TRULY MARVELLOUS.

"'FRAME FOOD' DIET far excels anything I know as a milk producer in nursing mothers, increasing the quantity and improving the quality. I have just finished nursing a lady whom I have nursed on three previous occasions; each time she has had a very scanty supply of milk of inferior quality. This time I determined to try 'FRAME FOOD' DIET as gruel, and was more than satisfied with the results. She would always feel the milk come in about twenty minutes after taking 'FRAME FOOD' DIET. When I used oatmeal or any other substitute this was not the case, nor was the baby so satisfied. I made three separate trials in this way with my patient to convince myself.

"I have also ordered it for three of my patients who suffered from poverty of blood and indigestion, and I hear the results are marvellous."
