

most loyal subjects, are now our enemies. We have now not only a German question there. Finland we have also stirred up against us. But, not content with these achievements, we are now elaborating a Tartar and an Armenian question. Of Poland I need not speak. You have heard how the peasantry regard the Czar. They have no notion of legitimacy. One Czar is as good as another. As it happens, the present Government has had the misfortune to make an enemy who may become very useful in the hands of agitators. I mean the young Grand Duke Michael Michaelovitch. He is very popular. We are living in terrible times. Our society is sunk in materialism, and cares for nothing but self-enjoyment, and the peasant has ceased to be the thoughtless Czar-worshipper of the past."

What a Nihilist that little Nurse Carew would make! Will you please thank her from me for all her kindness to you?—Your loving
JEAN.
