

**SPECIAL PRIZE COMPETITION.**

We have much pleasure in announcing that we are enabled to offer a Special Prize—viz., a Sewing Machine, as per illustration, which is furnished with a handsome walnut cover, of the value of FIVE GUINEAS, to the com-

petitor who makes and sends in the neatest and most effective NURSE'S CAP. *Rules.*—The cap, which should be accompanied with the full name and address of the competitor and a statement of the exact cost of the materials used in the making of it, with the coupon cut out of our advertisement column, securely packed in a box, must be addressed to "Nursing Record Special Prize Competition, St. Dunstan's House, Fetter Lane, London, E.C." It must be delivered not later than Saturday, August 1, next. The manufacturers have kindly undertaken to teach the winner (free of any charge) how to work and use the machine. The machine is on view and can be seen any day from ten to twelve at the Vertical Feed Sewing Machine Company, 24, Aldersgate Street, E.C.

CARBOLIC SMOKE BALL CO.,  
 27, Prince's St., Hanover Square, W.

**'SALVINE'**

(THE SCIENTIFIC DENTIFRICE).

THE LANCET, in its issue of the 29th Nov. 1890, reports:—

"'SALVINE DENTIFRICE' is a delicately-scented paste, which exhibits an alkaline reaction to test paper. It is perfectly free from injurious elements. From its composition it is evidently ANT-ACID, ASTRINGENT, and ANTI-PARASITIC. 'SALVINE' is contained in collapsible tubes, the use of which offers obvious advantages."

Dr. REDWOOD, F.I.C., F.C.S., Professor of Chemistry and Pharmacy to the Pharmaceutical Society of Great Britain, reports:—

"Having examined 'SALVINE,' I find it to be composed of high-class ingredients, eminently useful for the cleansing of the Teeth. It has a slightly alkaline reaction, and is of an antiseptic character, doubtless tending to the preservation of the Teeth. I consider it carefully prepared, agreeably perfumed, and entirely free from anything of an injurious nature."

Messrs STANGER & BLOUNT, F.C.S., The well-known Analysts and Assayers to H.M. Government, report:—

"We have carefully examined 'SALVINE,' and are of opinion that it is a Dentifrice of well-devised composition. We have in our analytical experience never met with a more rationally prepared composition."

Of all Chemists, 1/-, 1/6, 2/6; or direct from Depot—  
 3, OXFORD STREET, LONDON, W.
