Report of the Education and Examination Committee.

MISS LLOYD STILL, Chairman of the Education and Examination Committee, moved that its Report be received.

The Committee recommended that the following Hospitals be recognised as Training Schools, which, in combination with another Public Hospital, give complete training under Section 1 (2) of the Scheme of Training :—

Group of Cottage Hospitals in affiliation with the Royal United Hospital, Bath—Chippenham Cottage Hospital, Frome Cottage Hospital, Melksham Cottage Hospital, Paulton Memorial Hospital (Bristol), Savernake Cottage Hospital, Shepton Mallett District Hospital, Swindon Victoria Hospital, Trowbridge Cottage Hospital, Warminster Cottage Hospital.

That the following Hospital be recognised as a Training School, which, in combination with another Public Hospital, gives complete training under Section 1 (3) of the Scheme of Training :—

St. Chad's Hospital, Birmingham, in association with Dudley Road Hospital, Birmingham.

On the suggestion of the Chairman of the Council, the Chairman of the Education Committee asked leave to substitute the word "a" for "another" before "Public Hospital" in the above Recommendation. (Recommendation 9.)

MISS BUSHBY protested that Recommendation 9 was most misleading, as it implied that St. Chad's Hospital, Birmingham, was a public hospital (the Chairman here interposed that the proposition just made by the Chairman of the Education Committee obviated this), whereas Burdett's Hospitals and Charities for 1924 called it Edgbaston Private Nursing Home, Ltd. There were two classes of patients taken, those who paid £12 12s. weekly for nursing accommodation and professional attendance, secondly, ordinary private patients who paid the medical attendant independently of the nursing charges.

If this recommendation were allowed to go through it created a very dangerous precedent, as many other Nursing Homes would want to be recognised as Training Schools. It was also an economic question as unskilled labour would be employed. At the present time trained nurses were finding it difficult to find work.

She knew full well that this Home did excellent work, and met a great need, but it was the principle which she objected to.

[Except for the protest of Miss Bushby, this recommendation of the Education Committee condoning the un-

justifiable practice of utilising patients who pay for skilled nursing in a private home for the training of probationers, went through unopposed.—ED.]

That the Bolingbroke Hospital, London, be recognised as a Training School, in association with Hampstead General Hospital, under Section I (3) of the Scheme of Training.

Fever Hospitals.—That the following Hospitals be recognised as Training Schools for Fever Nurses :—Birkenhead—Infectious Diseases Hospital; Coventry—City Fever Hospital.
