

Babies who "give no trouble"

Good Babies are healthy babies. Nurses who advise Almata free the mothers and themselves from constant and useless disturbances, for Almata builds strong healthy babies free from digestive troubles.

Here is a letter—already published in the *Lancet*—which shows why doctors are recommending Almata :

"I consider Almata best for the artificial feeding of infants from birth, as they are free from digestive disturbance and consequently are well contented, giving their parents the minimum of trouble and anxiety."

A Free Sample of Almata, together with literature, will be sent with pleasure to any Nurse sending her professional card.
