THE PASSING BELL.

WILHELMINA MOLLETT.

To many members of the Nursing Profession, both at home and overseas, the death of Miss Wilhelmina Jane (Mina) Mollett, at Caldera, Chile, in her seventieth year, will cause deep regret, for Miss Mollett was one of its most brilliant and versatile members, and had Medicine or Literature been her chosen profession she would unquestionably have made her mark in either.

The eldest daughter of the late Mr. John William Mollett, B.A., of Brazenose College, Oxford, of Huguenot extraction, and of a German mother, she was richly dowered with intellectual gifts. She was born at Northfleet in Kent, and educated partly in England, but principally in Hanover, spending subsequently the impressionable years of her early youth in Hanover and Paris.

Miss Mollett entered St. Bartholomew's Hospital, London, as a probationer in 1882, and, upon obtaining its certificate, was appointed a Sister at the East London Hospital for Children at Shadwell. She then held successively the positions of Superintendent of Nursing at the National Hospital for Nervous Diseases in Queen Square, Bloomsbury, and of the Chelsea Poor Law Infirmary, for a short time was Matron of a Nursing Institution in Johannesbutg, and in 1892 was appointed Matron of the Royal South Hants and Southampton Hospital, and held this position for #8 years, when she retired from active professional life.

She was one of the first members, and later a Vice-President, and Hon. Secretary, of the Matrons' Council of Great Britain and Ireland, and a Vice-President of the Society for the State Registration of Trained Nurses.

In 1901 she attended the Congress of the International Council of Nurses in Buffalo, U.S.A., as the Delegate of the Matrons' Council, and most of its subsequent Congresses.

In 1913 she delivered the second Isla Stewart Oration, in which she dealt sympathetically and brilliantly with the

life and work of this great leader.

The last years of her life were spent in Chile with her sister, who is a leading educationist.

She was a Foundation Member (Councillor) of the International Council of Nurses, and her death removes one more of that rapidly decreasing group.

GENEVIEVE COOKE, R.N., Professional Journalist.

Early members of National Councils of Nurses will be saddened to learn of the death of Miss Genevieve Cooke, one of the founders of the California State Nurses' Association, who attended the Congress of the International Council of Nurses at Buffalo, in 1901, and the Interim Conference in Paris in 1907, where her attractive personality and professional feeling and courage won for her much

appreciation and many friends.

Miss Theresa Earles McCarthy, R.N., and Miss S. Gotea Dozier, R.N., in an Appreciation of their beloved leader and friend in "The Pacific Coast Journal of Nu: sing," relate that she was the eighth child of a pioneer family, her parents being English, and was born in a little mining town in the high Sierras of California. She graduated as a nurse soon after her nineteenth birthday, and for thirteen years did private nursing, becoming later interested in corrective exercises, physical training and massage, and established herself in an office in San Francisco for her professional

At an early Session of the California State Nurses Association Miss Cooke brought up the question of issuing regularly a small paper or pamphlet, but the President, Miss Sophia L. Rutley, expressed the view that the organisation was still too young to attempt such an undertaking,
