

# THE PURITY OF WINCARNIS

In a bottle of Wincarnis there is the equivalent of more than two pounds of the choicest wine grapes.

Wincarnis is made from imported red wines of the finest quality and is guaranteed to be free from any anti-ferment or other deleterious matter.

Model bottling and packing conditions ensure this high quality reaching the consumer unimpaired.

## WINCARNIS

Members of the nursing profession are invited to write for booklet: "Composition and Therapeutic Properties of Wincarnis" to Coleman & Co. Ltd., Wincarnis Works, Norwich.

F.S./Allens

## For Baby's Safety

BABY'S happiness and health and safety are dependent on the absolute purity of everything he touches. The powder that will keep his skin cool and prevent his little clothes from chafing him, for instance . . . .

Johnson's Baby Powder is never touched by hands. It is made of the purest talc brought all the way from Italy because only Italian talc is smooth and fine enough for Baby.

And nothing is added except boracic to make it protective, and a *very* mild perfume.

## Johnson's BABY POWDER

*Borated Talcum*
