Obstetric Practice

Sanitas Fluid solution used as a wash or dressing materially reduces the dangers of septicæmia, and is of undoubted value in all obstetric practice. Because of its peroxide and aromatic constituents, Sanitas Fluid is useful in all septic cases. Sample gratis to any certified nurse.

WHEN SOLID FOODS CANNOT BE TAKEN THESE ESSENCES STIMULATE AND RESTORE VITALITY RAPIDLY

THE VALUE of Brand's Essences in illness and convalescence is recognized by an overwhelming majority of modern doctors. Out of every 100 recently interviewed 99 prescribed this famous product for their patients.

Brand's Essences are the unadulterated juices of the finest freshly killed meats conserved by a unique process in their natural form—a clear, appetizing jelly. They contain no added substance such as colouring matter, gelatine or preservatives which could hinder assimilation.

During acute illness—particularly pneumonia or gastric disorders—they form an invaluable restorative through those periods when the system is incapable of digesting solid food.

And in convalescence, Brand's Essences excite appetite—overcome that reluctance to eat so apparent after nearly every dangerous illness.

Brand's Essences can be obtained at chemists and stores throughout the world in tins and glasses. On receipt of a professional card, trial samples will be sent to you. Write Dept. K.2, Brand & Co. Ltd., Mayfair Works, Vauxhall, S.W.8.
