THESE

ESSENCES RESTORE VITALITY
AND STIMULATE THE APPETITE

RECENT investigation proves that 99 out of every 100 doctors interviewed recommend Brand's Essences in cases where the need for an easily assimilated food is imperative!

Absorption by the digestive system is so rapid that, in states of extreme exhaustion, they restore vitality almost immediately. And, during convalescence when the very thought of ordinary food is repugnant, these Essences help to stimulate the appetite and create a desire for the solid diet which is so vital to recovery.

For Brand's Essences consist entirely of the pure juices of the finest fresh meat—conserved in their natural form—a delicious jelly. Nothing is added which could prevent easy assimilation—no flavouring, no gelatine, no colouring.

You can recommend Brand's Essences with the utmost confidence—they are obtainable at chemists and stores throughout the world in tins and glasses. A professional card will bring you samples of the Essences immediately. Write Dept. K4, Brand & Company Limited, Mayfair Works, Vauxhall, s.w.8.
