while the other will be found very useful to Nurses for holding their clinical thermometers in perfect safety. These cases can be fastened to dress or belt, according to choice, and cost one shilling.

CHOCOLAT SUCHARD.—Chocolate is becoming such a favourite beverage, that we little wonder at the great care that is bestowed upon its manufacture, and at the high state of excellence to which it has now reached. Chocolate in itself is such a nutritious food, possessing such sustaining qualities, that people who find it inconvenient to take their

our native manufactures, has a standing reputation of sixty-five years, which is quite long enough to recommend it to the use of all. We find this chocolate most delicate in taste and aroma, besides being inexpensive. Independently of the cakes (which are used for chocolate as a beverage), many styles and varieties are "put up" in the way of confectionery in pretty little fancy boxes; so that it is possible to satisfy the tastes of all. The principal depôt in London for these goods is at 38, Holborn Viaduct, E.C.

THE NEW TERRYCOMBE LADIES' TOWELS (manufactured by Messrs. E. Lambert and Son, 60, Queen's Road, Dalston, N.E.).—These towels are particularly well suited for the purpose intended. They are delightfully soft, exceedingly well made, light in weight, and thoroughly absorbent—an excellent feature in manufactures of this kind.

AFTER SIX YEARS' WEAR

"7, The Crescent, Birmingham,
June 25th, 1888.

"Dear Sirs,—The Bedsteads you constructed for me with 'Dominion Wire Spring Mattresses' are by far the very best I have seen. They have now been in use for over six years, and have not given way in the least; the Springs have never broken, NOR DO THEY GET RUSTED. They are in every way, satisfactory.

"Yours truly,
"LAWSON TAIT, F.R.C.S."
