

recipes are all dealt with, and very well dealt with, too. Mr. Marsh has done his work well, the publishers also. —

A USEFUL little work, entitled "Servants of the Sick: a Manual for Nurses," published by Messrs. Masters and Co., 78, New Bond Street, W., is a very acceptable little book. It is dedicated to all those who decide to be in the service of the sick and servants of Jesus. It is a book of prayers, which it is claimed is the result of years of thought and work, aided by long experience of the servants of the sick and suffering. It has an interesting preface, and a useful contents, giving particulars of various devotions for Day Nurses and for Night Nurses, miscellaneous prayers, and devotions for the seasons, &c. It is well printed on good paper and serviceably bound. It should meet with considerable success, for it is sure to be appreciated. —

"A YEAR'S COOKERY," by Phyllis Browne (Messrs. Cassell and Co.). Price three shillings and sixpence. This book deals with a great variety of cookery matters; including "three meals a day," for every day throughout the year. It also gives instructions as to marketing, which will of necessity be a real *multum in*

parvo to a young housekeeper, and on the principle that variety is charming, this book can honestly be described as a thoroughly useful book. How the authoress has managed to give so many different recipes without repeating some of them, is really wonderful, and we must certainly congratulate her on the thoroughly practical manner in which she has compiled this cookery book. Several pages are devoted to the preparations of special foods for invalids, This certainly is a very useful book to have in every household. —

MESSRS. CASSELL AND Co. send us two specimens of their publications, which will undoubtedly be of great interest to the medical profession. First, the "Medical Diary," being ruled for visits, accouchements, vaccinations, &c., will be found useful; in addition to which it has twelve pages at the end for cash accounts, one page for each month, so that a Doctor can keep a rough draft of any items which might be otherwise difficult to note at the time. Second, Letts's "Medical Prescription Copyist" is not so elaborate as the above, although equally strongly bound. It consists of alternate thin and thick leaves of paper, with a moveable carbon sheet between, so that the copy of a written prescription can
