

THE INTERNATIONAL COUNCIL OF NURSES.

CHANGES IN CONGRESS PROGRAMME.

It is inevitable that additional announcements, and some changes have to be made in the organization of our International Congress Programme. Thus we learn that at the Opening Session in Paris on July 10th, in the Addresses of Welcome, the speaker from Germany will be Frau Oberregierungsrat, Dr. Käthe Gäbel, State Institution for Public Employment Agencies and Unemployment Insurance, Berlin.

We are informed that Dr. Gäbel is the woman who has the highest State position in the German Reich, and that she is a trained Nurse.

Mlle. Chaptal, President of the International Council of Nurses will preside over this meeting—when Addresses will be delivered by eminent Frenchmen whose names have been already announced.

Miss E. M. Musson, C.B.E., R.R.C., LL.D., will be the Speaker from Great Britain. Quite a number of additional names will be added to the General Programme as speakers.

The title "Nursing in Colonies" has been changed to "Nursing in Countries where it is still in its Initial Stages."

The Dutch Nurses are anxious that many of those attending the International Congress of Nurses, Paris-Brussels, shall use the opportunity of visiting Holland, after the Meeting.

Immediately following the Congress of the International Council of Nurses, the Dutch Nurses' Association (Nationale Bond van Verplegenden) are arranging a trip through Eastern Holland to last for one week, the cost of which will be approximately 75 guilders. The excursions will be arranged so that they are interesting from the professional as well as from the sightseeing point of view. Those wishing to take this trip are asked to communicate as soon as possible with the Nationale Bond van Verplegenden, Roemer Visscherstraat 1, Amsterdam W., Holland.
