

Still another remarkable recovery!

We publish below another recent medical testimony to the life-saving attributes of our foods, which needs no further comment on our part.

Dear Sir,

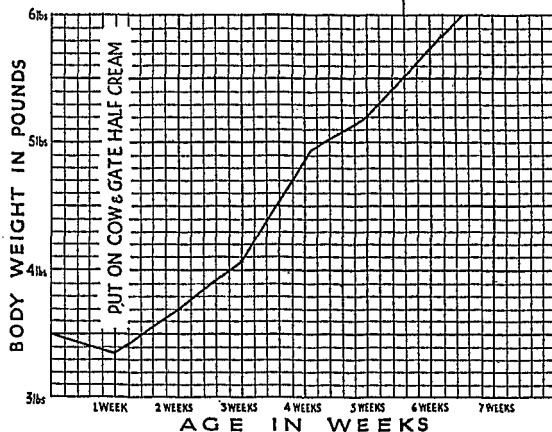

11.12.33

As a user for many years of your food for artificial feeding of infants, I thought you might care to have the enclosed notes of a most impressive case of a baby born in eclampsia. You will recognise that such a child at birth is in a very weak poisoned condition and requires nurses night and day. The mother was a shop-keepers' wife, not a strong country woman, like most of my patients.

I have had no trouble after the first two weeks, and I think this speaks volumes for the food you make. Please make any use you like of this, providing my name is not published, of course.

Yours very truly,

H. L. C., M.D., F.R.C.S.

27th Oct.—3rd Nov. fed by pipette with—
3.11.33. Wt. 3 lbs. 6ozs. Put on Cow & Gate Half Cream.

11.11.33. " 3 lbs. 11 ozs.
18.11.33. " 4 lbs. 1 oz.
26.11.33. " 4 lbs. 13 ozs.
2.12.33. " 5 lbs. 3 ozs.
10.12.33. " 5 lbs. 13 ozs.

In five weeks therefore the gain was 2 lbs. 7 ozs. Motions normal at the fourth week. Sits up to stool 4 weeks. Takes full term feeds for 3 weeks. Food supplemented by a few drops of codliver oil only.

H.E. child (f) of Mrs. W.,
c/o Dr. C.

Mother.

26.10.33. Acute eclampsia.
Three bad fits.
Urine solid with albumen.

Child.

27.10.33. Miscarriage at 28 weeks of pregnancy. Child very weak and 3 lbs. 8 ozs. at birth.

● Clinical samples and literature relating to any of our products will be gladly sent on request to any member of the Medical and Nursing Professions.
