

that the profits will be given to the Florence Nightingale Scholarships Fund of the National Council of Nurses of Great Britain. As there are upwards of 35,000 nurses associated in the National Council, and many thousands who are interested in the Memorial to the Lady with the Lamp, we feel sure, when published, "The Lady with the Candle" will find a ready sale. Wouldn't it be splendid if the "Candle" secured a whole Scholarship in honour of the "Lamp"?

WHAT OUR FELLOWS AND MEMBERS ARE DOING.

Miss Sallie Round, All Saints' Dispensary, Panvel, District Kolaba, Bombay Presidency, who has been in communication with the British College of Nurses in regard to the preparation of a paper on State Registration of Nurses which she presented at the Conference convened by the Nurses' Association of India, recently held in Bombay, writes to tell us what interest the paper created. She says, "I certainly could not have prepared the paper without the help given me by the British College of Nurses, and I only hope I have done some good. The Registrar for the Bombay Presidency has asked for it, and Her Excellency, Lady Brabourne, says she will help in the movement so that Bombay shall not be behind."

"I thought they would get tired of hearing of dates, resolutions, amendments, but the delegates at the Conference asked that the paper might be published in book form, as well as in the *Nursing Journal of India*."

So the good work goes on. We congratulate Miss Round on her success.

Miss E. M. Foulkes Pritchard, F.B.C.N., writes from Cape Town:

"I am sending my good wishes to all my friends at the College. I do trust they are well, and I now have reached the happy moment of looking forward to seeing them again, as my long leave falls due next year, so I hope to be in England for next Christmas, all being well."

"I have just been successful in getting all my nurses at each of the three Hospitals through their Final and Preliminary Examinations, which is very gratifying, and I now breathe freely for a short while."

Miss Mildred I. Walker, R.N., M.B.C.N., Chief of Division of Study for Graduate Nurses, Faculty of Public Health, University of Western Ontario, writes:

"I cannot tell you how much I enjoy the BRITISH JOURNAL OF NURSING each month, and I find it of assistance to me in my lectures to our students here who seem to enjoy it as well as myself. We have the JOURNALS on file in our Library and we hope eventually to have them bound in order that they may be preserved for future reference."

"With best wishes for the College and those associated with it."

Miss E. M. Bottrill, F.B.C.N., writes from Adelaide, South Australia:

"I would like to express my thanks to the Council for their kind consideration to overseas members and with good wishes for the continued influence of the College in the coming year."

THE PASSING BELL.

We regret to announce the death on December 11th, 1934, of Miss Janet Walker Wilson, late Sister, Queen Alexandra's Imperial Military Nursing Service, after having been in failing health for several years.

Trained at the Great Northern Central Hospital, Miss Wilson was appointed to the Army Nursing Service in 1895, and on the reorganisation of the Army Nursing Service, she was appointed Sister in Queen Alexandra's Imperial Military Nursing Service. She served in the Royal Victoria Hospital, Netley, and in Malta, and also the British Expeditionary Force in France during the first few weeks of the Great War. Owing to ill-health she retired from the Q.A.I.M.N.S. in 1916 after a period of 21 years' devoted service, and much to the regret of her many friends who now mourn her loss.
